

Welcome to the GCCHLA Fire Mitigation Hub

Living in the beautiful mountain terrain of the York Gulch area brings incredible views, but it also comes with the shared responsibility of wildfire preparedness. The **Gilpin - Clear Creek Home & Landowners Association, Inc. (GCCHLA)** is deeply committed to protecting our community, homes, and surrounding natural landscapes through proactive fire mitigation.

Our Commitment to Safety

Wildfire prevention is a team effort. By managing vegetation, creating defensible space around our properties, and staying informed, we can significantly reduce the risk of wildfire damage.

- **Firewise Communities USA®:** We are proud to announce that in **2026**, GCCHLA officially joined forces with the National Fire Protection Association's FIREWISE program. This achievement underscores our community's dedication to implementing actionable, standard-setting safety measures.
- **Community Action:** From neighborhood cleanup initiatives to our annual Fire Mitigation Day events, our residents actively work together to keep York Gulch safe.

Get Involved

Explore the links in the sidebar to view our official **York Gulch FIREWISE Certificate**, check out photos from our recent community mitigation days, or browse **Useful Links** for expert resources on how you can prepare your own property.

Together, we can build a resilient, fire-safe community.
